

# *Your Tooth Fairy Grant in Action*

**Presented to Pierrel Pharma, June 2016**

On behalf of the entire America's ToothFairy team, thank you for your generous support for our Virtual ToothFairy Ball and Online Auction. Your contribution helped us expand delivery of vital oral health educational, preventive and treatment services for at-risk children!

Your **\$5,000 Orabloc by Pierrel Pharma ToothFairy Grant** was awarded to **The Children's Dental Center**, an America's ToothFairy Affiliate serving the Greater Los Angeles, California, region. Your support helped The Children's Dental Center reach 500 dentally underserved children and their families. Children were identified through schools and community-based settings such as local daycares, Early Head Start or Head Start programs. Each child received oral health education, a dental screening, educational take-home materials, a hygiene kit, and referrals for treatment planning as necessary.

**"Our warmest thanks to Orabloc by Pierrel Pharma for this ToothFairy Grant! America's ToothFairy programs and resources have helped TCDC improve and increase access to oral health education, oral health literacy and promote overall health and wellness. Your support has helped TCDC raise oral health awareness among dentally underserved children, parents and caregivers from a variety of cultural, ethnic and socioeconomic backgrounds in the community."**

**-Dennis Young, President and CEO, The Children's Dental Center of Greater Los Angeles**

**You are a valued partner in our work. Thank you for your generosity and support!**
